Member FINRA. Investments in oil and gas properties involve substantial risk including the possible loss of principal. These risks include commodity price fluctuations and unforeseen events that may affect oil and gas property values.

ENERGYNET

Tech Enabled Acquisition & Divestment Platform
for Sealed Bid Offerings, Negotiated Sales, Auction, and
Federal and State Lease Sales

Why do companies keep choosing EnergyNet?

The answer is simple - we consistently deliver.

EnergyNet.com, LLC is the full-service platform for your acquisition and divestiture needs. No other team will work harder to ensure your success. EnergyNet takes pride in every engagement and understands the importance of delivering a quality product to a competitive market. We have the resources, experience, and drive that it takes to ensure the best possible outcome. The people, the processes, and the easy-to-use platform at EnergyNet set us apart in the field.

EnergyNet is an upstream oil and gas tech-enabled acquisition and divestment platform with the largest active network of buyers and sellers in the industry. EnergyNet facilitates sealed bid sale processes, transparent bid auctions, and government agency lease sales for oil and gas assets and other natural resources. We've been in business for 22+ years and our structured, fair, competitive sale processes consistently work. EnergyNet is the only continuous oil and gas property marketplace, operating 24/7/365, offering constant liquidity to buyers and sellers.

EnergyNet’s Full-Service Acquisition and Divestiture Platform is Supported by a Top-Notch Team of Professionals.

Business Development

The Business Development team guides sellers through the entire process and utilizes their strong industry bonds and connections to put deals in front of potential buyers.

Technical Team

Our in-house and contract Technical team’s focus on evaluations, proposals, data rooms, and executive summary presentations for EnergyNet’s higher valued Indigo assets.

The Land and Technical Team

This team builds comprehensive asset pages and data rooms for our clients, organizing all provided seller materials to aid in buyer due diligence process. The Land and Technical team is very experienced - L&TS alone has over 40 years of experience in the various areas of the O&G industry, customer service, management, accounting, and GIS mapping.

Marketing

The marketing team at EnergyNet helps bring buyers and assets together. We inform potential buyers of assets as they hit the market, providing ample opportunity for the due diligence process to take place. The team works closely with all other departments to tell the story of EnergyNet and the people, the processes, and the platform that set us apart.

Accounting and Conveyancing

Having experts to assist in the process is of utmost importance to EnergyNet and our clients. The Accounting and Conveyancing team helps with payments and conveying all the needed documents of a sale. The team works to ensure a smooth transition for both sellers and buyers. This team also assists buyers with account setups, bid allowances, and the transactional processes of a sale on the EnergyNet platform.

Government Resources

The Government Resources department prepares state and federal lease sales for listing on the EnergyNet website. The team creates maps/GIS files when necessary, for display as well as bidder download. They also conduct exhaustive marketing campaigns for each sale, using EN proprietary marketing strategies. At the close of a sale, they handle invoicing for sold tracts/parcels, coordinate receipt of funds as directed by the client, and provide detailed and customized reporting to the client. Additionally, the team provides ‘Call for Nominations’ campaigns for the contracted agencies to increase interest and possible revenue.

Development

EnergyNet’s in-house team of software engineers, web developers, and IT specialists fine-tune EnergyNet.com, giving our clients the best experience possible for both sellers and buyers.
